

The Village of  
**PORT CLEMENTS**  
*"Gateway to the Wilderness"*

**December 13, 2019**

**IMPORTANT NOTICE:**

**BOIL WATER NOTICE LIFTED**

The second water sample came back clear.

The boil water notice has been lifted by the environmental health officer. For the following reasons:

- The water system has been disinfected, flushed and re-sampled.
- Two sets of consecutive samples collected from the distribution system after disinfection and flushing were completed showed satisfactory results (i.e. that have no detectable total coliform bacteria or *E.coli*)

Village water may be consumed without boiling.
