Nurses and Hospital Management Move Forward in Bargaining

(Indiana, PA): The Indiana Registered Nurses Association and the Indiana Regional Medical Center met for a bargaining session on Tuesday night.

“The tone of tonight’s bargaining session was forward-thinking and hopeful,” said IRNA President Kathy Wolfe. “While there is plenty of work to do, we are pleased that we made strides forward in some areas.”

Both sides moved closer to an agreement on several non-economic issues and other items including paid leave.

There are additional bargaining dates scheduled for Dec. 13 and 20 and both sides are discussing additional dates to continue bargaining in January.
