Development of the Caledonia Nordic Ski Club facility is an investment contributing to the significant array of amenities found in Prince George and the region, creating opportunities that will attract and retain skilled workers and their families.

Most people who visit Prince George will also visit the region – for example: Jasper/Banff, the west coast and Prince Rupert, travel north to visit Yukon and perhaps Alaska.

This event will develop a world-class facility for Paralympic athletes to train and compete at the highest level, enhance diversity and inclusion in the development of Para athletes, while increasing accessibility awareness through physical improvements and education.

The installation of snow-making capabilities will allow the Caledonia Nordic Ski Club facility to compete with first-class facilities across the region, province, nationally and internationally – this ability will promote and attract people who want to experience the recreation opportunities offered in Prince George.

The Caledonia Nordic Ski Club facility has developed into a world class facility, providing professionally groomed trails as well as the in-house expertise to coach youth as well as train athletes from across north/central BC and provincially.

With the addition of broadband coverage, sharing information and the competitions hosted at Caledonia Nordic Ski Club will enable athletes from across the region and around the world an opportunity to observe latest Nordic techniques.
