~Quote after attending one of Paul's Conferences~
"I just want to tell you how energizing your workshop was yesterday. I have worked with APS for six years but have been working with elders and dependent adults for almost forty years. Some days I wonder why I'm still doing what I do. People just don't seem to understand or care. When I tell people what I do, what I usually hear is "really?", "what is APS?" or my personal favorite, "oh that must be so hard" I don't even know how to respond to that. Hearing all that you have seen and done in the past 25 years and seeing the passion you still have, gives me hope. Your presentation is informative, sobering and inspiring. Keep doing what you're doing you are a voice for those who have no voice."
