

PATIENT CARE CENTER

Looking for Breast Health Resources?

Komen's Patient Care Center supports you – wherever you are on your breast health journey - and it all starts with our Breast Care Helpline.

Our **culturally responsive navigators** are here to support you with:

- **Answers** to questions about your breast cancer risk
- **Emotional support** and guidance in addressing feelings and other concerns
- **Information** about breast cancer screening, treatment options, clinical trials, support resources, and genetic counseling and testing
- Access to no-cost **screening mammograms and diagnostic services** based on income eligibility
- **Financial assistance** if you're an income eligible breast cancer patient in treatment or living with metastatic breast cancer
- **Navigating the health care system**, including communicating with your health care providers, understanding treatment options and accessing the support services you need

You can count on the Patient Care Center to be your go-to source for timely breast health information, services and resources.
