

The Susan G. Komen **D I F F E R E N C E**

Komen is the world's only breast cancer organization with more than four decades of experience, driving groundbreaking research, community health programs, care services, education and advocacy in more than 60 countries.

We are committed to addressing two strategic imperatives to achieve our mission: Conquer aggressive and deadly breast cancers to help people live longer, better lives and ensure all people get the care they need and achieve health equity.

MAKING AN IMPACT

We provided more than **42,000 services through our direct patient support programs** that make up our Patient Care Center and provided financial assistance to more than 16,000 individuals, amounting to more than **\$9 million in support**.

More than **3 million people received breast health and breast cancer education** from Komen.

Komen supported more than **55 bills at the federal level** last year that would expand access and remove barriers for life saving care.

We invested more than **\$13 million in community health programs** in the last year alone to ensure people get the help they need to understand the disease, access screening and diagnostic exams, remove barriers to care and receive critical support.

Over **115,000 advocates who work to influence policy change** to accelerate research, ensure access to high-quality, affordable care and alleviate patient burden

Our research investment: **More than \$1 billion** in more than **2,700 research grants** and more than **530 clinical trials**.

RESEARCH
DISCOVERIES
IN THE
PIPELINE

More than 3,000
new breast cancer
research products
(drugs, biomarkers,
devices, etc.).

Over 650
new discoveries
focused on
metastatic breast
cancer.

More than 1,200
potential
treatments, more
than 400 focused on
metastatic breast
cancer.

Nearly 400
new strategies to
reduce breast
cancer disparities.
