Note: due to the nature of our programs that are heard on-line over the Internet, contests heard on the radio station's Internet
audio stream are slightly delayed from the time the contests heard on the broadcast station and may be running behind the
broadcast signal. Thus, all contests heard are delayed. This delay can last for 30 seconds up to several minutes. This means
that when the station announces winning names in this contest, listeners to the on-line audio stream may be at a disadvantage in
participating over those listeners who hear the contest on conventional radio. For this contest, the station will start counting
down when the announcement is made on the radio broadcast signal.
