ADMINISTRATOR'S REPORT

I am honored to present the Illinois Gaming Board's (IGB) 2024 Annual Report. This report highlights the IGB's impactful work over the past year to protect the integrity and safety of Illinois gaming and generate gaming tax revenue while maintaining public trust and confidence.

As in recent years, 2024 was yet another year of historic growth and productivity for both the IGB and Illinois gaming. Legal gambling began in Illinois nearly 35 years ago with riverboat casino cruises. Over the ensuing years, and especially since enactment of the landmark 2019 expansion law, gaming in Illinois has evolved into a multi-billion dollar industry making our State a leader among gaming jurisdictions. As of December 31, 2024, Illinois was home to 16 licensed casinos, 14 active sportsbooks, and almost 8,700 licensed video gaming establishments with nearly 49,000 video gaming terminals (VGTs) in operation statewide. Since November 2021, the IGB has overseen openings for seven newly authorized casinos in Rockford (permanent and temporary), Waukegan, Danville, Carterville, Chicago, and most recently in East Hazel Crest on November 11, 2024 when Wind Creek Chicago Southland opened its doors.

The IGB regulates thousands of licensed entities and individuals involved with the Illinois casino, video gaming and sports wagering industries. Despite a start on the eve of the pandemic in March 2020, Illinois was firmly among the top two U.S. sports wagering markets by handle in 2024. Illinois' legal video gaming industry continues to grow. In fact, the State's regulated video gaming route system is the largest distributed network of its kind in the world. Our voluntary Self-Exclusion Program for problem gamblers was one of the first self-exclusion programs in the nation and in 2024 had more than 15,500 enrollees.

In calendar year 2024, the three gaming verticals under IGB jurisdiction – casinos, video gaming, and sports wagering – generated nearly $1.76 billion combined in gaming tax revenues for the State and local communities. Much of those dollars went to the Capital Projects Fund, the Education Assistance Fund and other funds as designated by statute to support critical projects across Illinois.

Below are some other highlights of the past year. In 2024, the IGB:

- Processed, investigated, and resolved (either by approval or denial) thousands of license applications and regulatory requests across all gaming sectors.
- Conducted regulatory oversight for the openings of the new permanent casinos in Rockford and East Hazel Crest.
- Licensed 790 new video gaming establishments.
- Approved three new sportsbooks.
- Held seven public meetings (almost twice the yearly number required by law).
- Pursued impactful investigations, disciplinary complaints, and enforcement actions.
- Adopted administrative rules and advanced critical initiatives to safeguard gaming integrity and modernize agency technology, infrastructure, and operations.
- Continued to hire additional civilian and sworn personnel to meet regulatory and law enforcement responsibilities, IGB initiatives, and statutory mandates.

The high volume of quality work delivered in 2024 would not have been possible without the IGB's strong, talented, and committed professional staff and Board Members. I acknowledge and express my gratitude for their dedication and work to uphold the rule of law and protect the integrity and safety of Illinois gaming without bias or favor. Their work during the past year represents the highest standards of public service.

The IGB looks forward to building upon the accomplishments of 2024 and to continuing our work to ensure public trust, ethics, accountability, compliance, and success in Illinois gaming for 2025 and many years to come.

Kind regards,

Marcus D. Fruchter
Administrator

HISTORY OF THE ILLINOIS GAMING BOARD

CASINOS

The Illinois Gambling Act (formerly the Riverboat Gambling Act),was originally enacted in February 1990, making Illinois the second state in the nation to legalize casino gambling on riverboats. The Gambling Act established the Illinois Gaming Board (IGB) to serve as the State's regulatory and law enforcement agency charged with ensuring the integrity and safety of Illinois gaming and facilitating gaming tax revenue generation and collection. The Act authorized up to 10 casino licenses, which were issued between 1990 and 2010. In 2019, the gaming expansion law increased the number of casino licenses to 16 and allowed horse racing tracks to hold casino licenses.

On September 11, 1991, the first casino, Argosy Casino Alton, began operations. The State's 16th casino, Wind Creek Chicago Southland in East Hazel Crest, opened its doors to the public on November 11, 2024.

VIDEO GAMING

In July 2009, Public Act 96-34 became law, creating the Illinois Video Gaming Act. Since 2009, video gaming has rapidly expanded across Illinois.

The first Video Gaming Terminals (VGTs) went live for patron play on September 10, 2012. At the end of 2024, there were more than 48,706 VGTs operating in 8,662 licensed establishments across the State. Illinois' distributed network of VGTs is the largest of its kind in the world.

GAMING EXPANSION

On June 28, 2019, Governor JB Pritzker signed Public Act 101-31 into law, which greatly expanded gaming across Illinois and more than tripled the IGB's jurisdiction and responsibilities. The expansion law legalized sports wagering for the first time in Illinois history, authorized six new casino licenses, allowed horseracing tracks to hold casino and sports wagering licenses, significantly expanded video gaming across the State, and allowed video gaming at the Illinois State Fair and Du Quoin State Fair.

SPORTS WAGERING

The Illinois Sports Wagering industry, which launched in early March 2020 has grown to become one of the leading sports wagering markets in the United States.

ORGANIZATIONAL CHART

BUDGET FY2024

The IGB's appropriated budget for Fiscal Year 2024 (FY24) was $251.9 million, which represents a year-over-year increase of $3.7 million.

For FY24, the IGB's distributions to units of local government for their respective shares of admissions and wagering taxes remained the same as the year prior. Although additional casinos opened statewide, there was an overall decrease in admissions and related wagering at the existing casinos.

The IGB's operations are almost entirely funded through casino revenue with minimal contributions from sports wagering and video gaming fees. P.A.101-31 and P.A. 101-648 created or expanded certain casino tax credits and rebates and lowered other casino taxes, thereby negatively impacting IGB casino revenue receipts.

LEGISLATION

The sole item of enacted gaming legislation during 2024 was Public Act 103-0592 (House Bill 4951—103rd General Assembly) (P.A. 103-0592), effective June 7, 2024, which raised the tax rate on sports wagering. Before the enactment of this legislation, Master Sports Wagering licensees—the entities licensed to operate sports wagering facilities—paid a flat tax rate of 15% on all their Adjusted Sports Wagering Receipts (ASWR), defined as total gaming monies received from wagerers minus winnings paid out. These tax revenues were initially deposited into the Sports Wagering Fund and then distributed to the Capital Projects Fund. Master Sports Wagering licensees located in Cook County remitted an additional 2% tax on wagers placed in Cook County. This local tax is distributed to Cook County.

Beginning July 1, 2024, P.A. 103-0592 implemented a sliding scale of sports wagering taxes. The new tax schedule ranges from 20% on the first $30 million of a Master Sports Wagering facility's ASWR over a 12-month period (July 1 through June 30), to a high of 40% for ASWR in excess of $200 million earned during that period. The new tax rates apply both to sports wagering carried on in-person at sports wagering facilities and online. Of the tax revenues collected under the new schedule, 58% are distributed to the General Revenue Fund and 42% to the Capital Projects Fund. The previously applied and additional 2% Cook County tax on sports wagering remains unchanged and continues to go to the county's criminal justice system.

P.A. 103-0592 raised the effective tax rate on Illinois sports wagering (the aggregate percentage of taxes paid on all sports wagering) from 15% under the previous law to between 34% and 35%. This is roughly on par with the flat 35% tax rate applied to Illinois video gaming and exceeds the approximately 20% effective tax rate on Illinois casino gaming.

RULES

CASINO GAMBLING

Chip Values

(Adopted rule published at 49 Ill. Reg. 747, January 17, 2025) Prior to the adoption of this rule, the Administrator could only authorize chip values in the denominations specified in casino Rule 3000.625 (a) (2). The specified values ranged from $0.25 to $5,000. This rule addresses various chip values which had not been updated in a number of years. Following an IGB review of the chip rule due to a number of requests from licensees, a proposed change was requested. The rule authorizes chip issuances in any value approved by the Administrator. Relevant to this rule are requests by multiple casinos to issue a chip valued at $20,000.

VIDEO GAMING

Deactivations of video gaming terminals

(Adopted rule published at 48 Ill. Reg. 15438, November 1, 2024) This rule adds a new Section 1800.370 (Deactivation of Video Gaming Terminals). The new section authorizes the Administrator, following five days written notice, to deactivate the video gaming terminals (VGTs) of a licensed video gaming location that has failed to fulfill its duties under the Video Gaming Act (203 ILCS 40). Circumstances in which the Administrator may deactivate the VGTs of a location include, without limitation:

- Failure to timely pay a sum owed to the IGB.
- Lapse, expiration or inactivity of a liquor license.
- Failure to comply with a valid Board order; or
- An IGB investigation that reveals the location to be ineligible by statute or rule to operate VGTs.

As a condition for reactivation, locations whose VGTs have been deactivated shall be entitled to reactivation once the basis for deactivation has been removed and the location has paid a reactivation fee equal to the locations' annual license fee (currently $100) and is assessed per video gaming terminal. A licensee is excused from paying a reactivation fee if it can establish by clear and convincing evidence that it did not cause the basis for the deactivation.

The purpose of the rule is to provide the IGB with an additional option for deactivation in regulating locations that have not fulfilled their duties and obligations but whose conduct does not rise to the level of a revocation. In these instances, the rulemaking will conserve staff resources by not requiring issuance of disciplinary complaints to achieve compliance.

Ticket In—Ticket Out (TITO)

(Adopted rule published at 49 Ill. Reg. 728, January 17, 2025) This rule will facilitate implementation of Ticket In—Ticket Out functionality, commonly referred to as TITO, to video gaming terminals across the State. It will also enable other technological changes and modernization initiatives that the IGB is developing in cooperation with video gaming stakeholders.

There is currently a difference in the statutory definition of "video gaming terminal" contained in the Video Gaming Act (230 ILCS 40/5) and the rule definition of this term contained in 11 Ill. Adm. Code 1800.110. The Act's definition allows the "insertion of cash, electronic cards or vouchers, or any combination thereof" to place a wager. Section 1800.110, as written before the enactment of this rule, narrowed this definition by only permitting the use of cash to place a wager. The proposed rule amends the rule definition of "video gaming terminal" to make it identical to the statutory definition.

SELF-EXCLUSION PROGRAM (SEP) FOR PROBLEM GAMBLERS

In 2002, the IGB implemented a voluntary Self-Exclusion Program (SEP) for Problem Gamblers. The program was created to help compulsive gamblers regain control of their lives and give them the ability to ban themselves from Illinois casinos. In 2020, the program was expanded to include all Illinois online and retail sportsbooks. In 2024, a total of 450 persons enrolled in the Self-Exclusion Program, bringing the total accumulative enrollment between 2002-2024 to a total of 15,520.

The IGB maintains a confidential SEP database that contains identifying information about each person who enrolls in the program. Key information is shared with licensees to ensure that those who have self-excluded cannot cash checks or obtain credit at any Illinois casino. In addition, the State's casinos are prohibited from sending marketing material to persons on the SEP List.

At the time of enrollment in the Self-Exclusion Program, a self-excluded person agrees not to enter or gamble at any casino in Illinois. Additionally, if they are caught returning to an Illinois casino, self-excluded persons agree to donate all chips, tokens, and vouchers in their possession to the Illinois Department of Human Services (IDHS) designated agencies, including organizations such as the Illinois Council on Problem Gambling and the Illinois Institute for Addiction Recovery.

By the end of 2024, persons who were enrolled in the Self-Exclusion Program and subsequently returned to Illinois casinos had donated approximately $3,034,749 in gambling proceeds to the IDHS designated organizations.

Anyone interested in enrolling in the Self-Exclusion Program must do so in-person at sanctioned enrollment sites. More information on the enrollment process and enrollment site locations can be found on the SEP page of the IGB's website.

Between 2002-2024 a total of

15,520

people enrolled in the Self-Exclusion Program

CASINO GAMBLING
YEAR IN REVIEW 2024

Casino gambling grew in 2024 as a permanent casino and a newly authorized casino opened in Illinois, bringing the total to 16 casinos statewide.

The permanent Hard Rock Casino Rockford opened in August and Wind Creek Chicago Southland Casino in East Hazel Crest opened in November.

The IGB continued to regulate the existing casino operators in Illinois along with all related licensees.

According to the Committee on Governmental Forecasting and Accountability (COGFA), statewide adjusted gross receipts (AGR) for Illinois casinos increased 13.2% in Fiscal Year 2024 (FY24).

COGFA's report mentions that "With this growth, the FY24 AGR total grew beyond pre-pandemic levels and appears to indicate a reversal of the generally downward trend of casino revenues over the past decade."

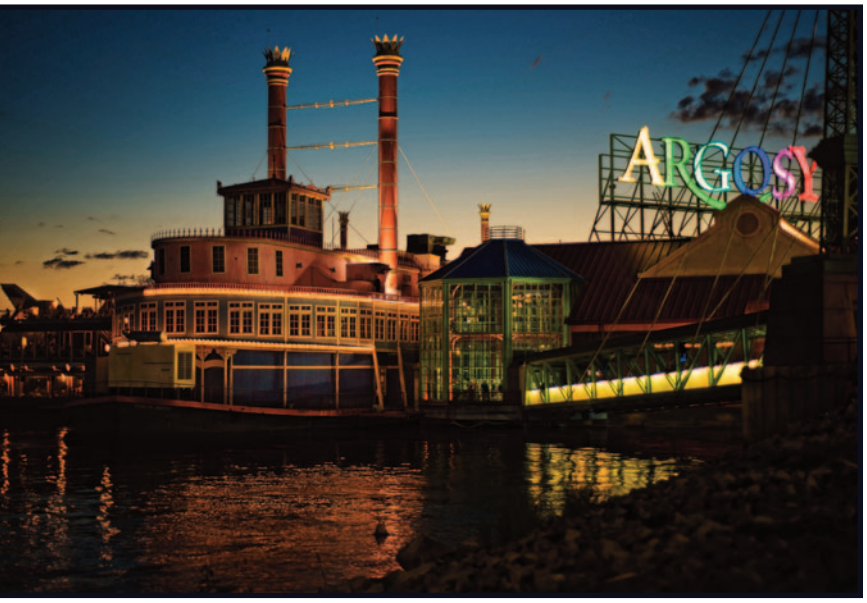

In addition, $158 million in casino tax revenues were transferred to the State's Education Assistance Fund.

During 2024, the IGB continued its many licensing and regulatory activities pertaining to casinos. The below chart shows the total number of license approvals, denials and renewals for 2024.
