

# PEACE RIVER REGIONAL DISTRICT EVACUATION ALERT

## EVACUATION ALERT #10

**Old Fort Subdivision**

**July 23, 2020, 1630 hrs**

An Evacuation Alert has been issued by the Peace River Regional District effective Thursday, July 23, 2020 at 1630 hrs for 7711 Old Fort Road due to there being surficial movement of material on the slope above this house outside of the original slide area of the landslides in 2018. This is a precautionary measure because it is unknown at this time how or if the older slide will have any affect on this newer movement.

Because of the potential for danger to life and health the Peace River Regional District has issued an **Evacuation Alert** for 7711 Old Fort Road. This alert is in addition to the pre-existing evacuation alerts issued on November 6, 2018 (Alert #8).

An Evacuation Alert has been issued to allow residents to plan for a variety of scenarios that may occur.

1. Determine if your individual situation allows you to safely shelter in place, given that road access may be cut off at any time and not be re-established for an unknown length of time. Those who choose to stay will not be provided additional support or supplies at this time.
2. Prepare to evacuate your premises or property on short notice should the situation worsen. Residents will be given as much advance notice as possible prior to evacuation; however you may receive limited notice due to changing conditions.
3. Self-evacuate if you feel that is the best option for you.

### WHAT YOU SHOULD DO:
