**All guidelines and outlines are for position only** and must be turned off or removed prior to production. Raster images should be placed at 600 ppi when scaled to this template that is at 1:24 final production size. Place images as CMYK .TIF or .EPS format. Convert fonts to outlines or supply them in a MacOS compatible format.

Spot colours should have Pantone references. If a colour match is critical, supply colour correct hard copy proof for reference.
