YOUR CANADA POST DELIVERY AGENT  
DOESN'T KNOW.

**All dogs – big or small, and regardless of breed – can bite.**

Dog attacks and bites cause serious injuries to our employees every year.

**Help us deliver your letters and parcels safely by keeping dogs secure and at a safe distance.**

- Be careful when you answer the door, so your dog does not slip out.
- Keep your dog inside, in a fenced yard or tied up far from the front door or mailbox.
- Keep front doors and fence gates closed.
- Keep your dog away from the screen door, even if it is locked.
